

# SAY IT WITH FLOWERS

Award-winning designer Veni Infantino wanted to produce a real show stopper for Spring 19. She told us: "Spring means flowers, new life and new beginnings, and for brides it is no different. I wanted to create a floral dress full of vibrant, yet delicate 3D flowers and foliage - which are very on trend now! The gown - Celestina - is made up of layers of tulle and soft

net with embroidery and is lovely and bouncy when worn. I really can't wait to see it on real brides! Since the gown was launched at The Harrogate Bridal show it has been all over Instagram!" Celestina is also available in ivory or white, but hey, the colour is just gorgeous... a great window piece! **+44 (0)1636 700 889**

## ALLURE BRIDALS

US firm Allure Bridals contacted its stockists in the UK last week (4 October) with the surprise announcement that its relationship with its distributors here had been terminated. However, while the UK, Ireland and Europe will be serviced by Allure itself ongoing, questions relating to existing orders should be directed through SB's offices. We will provide more information as it becomes available.

**Future Allure contact details are:**
